Indians Is Known Reported to Be Prowling Among Threatening Over a Dozen of Property.

Cheyenne, O. T., Aug. 1.—[Special.]—The Tribune received a dispatch early this morning that eight whites had been butchered by marauding Indians three miles south of Sage Creek in the Cheyenne Hills. It is believed that the Indians have on the war path, and that a terrible massacre of white settlers is imminent. The dispatch was received at the office of the Tribune at 1:30 o'clock this morning, and the news was immediately communicated to Governor [illegible] and to the United States troops stationed at Fort [illegible]. The Governor has called out the militia, and the troops have left the fort. The Indians are reported to be in the vicinity of Sage Creek, and it is believed that they will attack the settlers in that section. GALESBURG, Ill., Aug. 1.—[Special.]—The General Assembly of Illinois has before it a bill providing for the appropriation of $1,000 to erect and maintain the State exhibit at Knoxville, Tenn., in the event of accepting the invitation to Knoxville sent. The bill is in accordance with the Governor's recommendation in his message. The Governor has not yet appointed commissioners that will have charge of the matter, but the information received indicates that the progress made within the next few months will be very gratifying. The primary and specific object of the said appropriation is the development of such exhibit between the United States and the Spanish-American countries. In this the said board seeks to have a part in the work of cementing the harmony of peaceful commercial intercourse. By the first week of the month of May next, inclusive, the Union of the United States for Europe, that the sum of $50,000 and upward, if the need of the United States across the seven seas of $1,000,000, when, it ought to get the most of it, one of the greatest commercial products of the States of Spanish-American extraction and have our surplus manufactured articles. If the said committee can assist in accomplishing this great object it will be a noble work. The executive has been asked, and is ready now, on assurance of the participation of all Spanish-American Governments, have been requested to invite Governors and Commissioners to meet on the 4th of July, Governor Tanner has directed the exhibit of agricultural products of the State of Illinois, and has appointed Commissioners to meet at Springfield on the 15th inst. to arrange for the exhibit. The Governor has appointed the following Commissioners: Hon. Thomas J. Pickett, Rockford; Hon. Thomas J. Sloan, Chicago; Hon. Thomas J. Sloan, Chicago; Hon. Thomas J. Sloan, Chicago

Ex-Governor Hubbard, whose failure to get slave for daughter Mary Alice Crowther has come so under at once has attracted some attention, was yesterday committed to jail for one week for contempt.

Republican ballots are reported as selling for with the present figure low and no doubt that no attempt will be made to secure possession of the booked parcel, but may further restrictive dialect the vote.

In accordance with an act of the Pennsylvania Legislature defining the age at which boys may be employed in coal mines and mines, 100 boys were yesterday discharged from the collieries in the vicinity of Shenandoah.

An old man named James Hall of Tazy County, Georgia, ought to feel close to war starting a fence last Monday and remained hanging four days with his head downward before he was discovered. He is dying.

A message was received by the Chicago authorities yesterday announcing the capture near Princeton, in Bureau County, Ill., of Pat Cronin, implicated in the Cook West infanticide robbery. Officers started at once to identify Cronin and bring him to this city.

The number of new cases of cholera reported yesterday was 1,344 and of deaths 648. In Madrid sixty-nine new cases and forty-one deaths had been reported within the last forty-eight hours. Seventy bodies were left lying unburied in a cemetery outside the city.

A sales list for music in his city yesterday showed the sale by Jack H. Clancy to Siegfried Stocks of 100 feet of land on Clark street, southeast corner of Van Buren, for $100,000. The Drake Insurance Company conveyed to Wirth Weber a lot on the southwest corner of Harmon and Van Buren streets, 120 feet front, for $140,000.

The money market was quiet yesterday, with little disposition to borrow. Sterling exchange was steady at about previous rates. The New York stock market was dull and prices declined a little.—The Chicago grain and produce were quiet and averaged firmer. There was less trouble in placing the August deliveries than were had anticipated, and confidence in wheat was restored by the reports of the good condition in the Northwest. The corn market was higher, mostly 1 cent higher, closed ½ cent higher, with a short supply of cash lots, the time, before and September deals. During last week our shipments of wheat exceeded the receipts by 150,000 bushels and those of corn were short by 351,000 bushels. The packing of hogs since the close of February includes about 1,000,000 hogs, against 1,100,000 to same time last year, and 1,150,000 to same time in 1885.—The livestock markets were quiet and prices were without important change. Cattle and hogs averaged lower, and sheep were steady.

The assessment of $10,000 on the Chicago monument in this city is absolutely absurd. It will be unable to provide a handsome piece of statuary which will do credit to Chicago, Lincoln Park is to every respect the most appropriate location for it. Lincoln Park is now and always will be the most admirable public ground in the city, and it is especially fitting that the monument to the great soldier of Illinois should stand to the side of the monument to the great Emancipator who gave their lives for the preservation and restoration to the time of its birth. The talk about the Lake Front is ridiculous. This strip of ground is owned by the State and not by the city, and its future safety is uncertain. A monument could not be erected there without the sanction of the General Assembly, which will not again be in session for nearly two years. Nobody in this city has any legal right to build a monument on that ground and nobody knows how long the State may choose to let that open remain as it is. The persons who subscribe the money have a right to build a monument in Lincoln Park with the consent of the Park Commissioners, and that is all there is to the matter. Local movements may also be started in the heart of the old center in each of the other parts, with the consent of the park authorities, if the money is forthcoming. Lincoln Park has no monopoly in the matter, but has been clearly pointed because of its beauty and convenient location.

SOUTHERN AFFAIRS OF THE STATE.

The Meridian Mercury, one of the leading Democratic newspapers of Mississippi, in commenting upon the death of Gen. Toombs gives utterance to one of the clearest and most commonplace remarks which have yet been made upon the line now existing in the South. We have a great deal about the mourning of the South for the death of Gen. Grant, but we have yet to discover, except in a few exceptional cases, that it goes much deeper than gratitude for his magnanimity in that action after it was completed and his victorious conduct at the surrender of Appomattox. The Meridian Mercury, however, candid and ardent Democratic paper, has the courage to say that the South does not mourn the death of Gen. Grant in reality but bringing a tribute, but he said it. It does not seem to occur to that Democratic editor, either, that the Old Confederate element of the Southern States, whether before or behind intrenchments, Confederates or Federals, whether before or behind intrenchments, Confederates or Federals, whether before or behind intrenchments, Confederates or Federals

The King of Servia's Financial Troubles and Political Re-unciliation.

An Evidence of Gladstone's Popularity—The Grand Old Man's Warm Public Greeting.

The Electoral Landslide Below the Turf Cloth—Hopes and Fears Twixt Gossip.

[Copyright, 1885, by Cable Dispatch Company. To the Tribune.] The King of Servia's financial troubles and personal and political Reconciliation are the subject of much comment by the Belgrade correspondents. The financial crisis in the Kingdom of Servia and the ongoing Process of the Servian Reconciliation. The financial crisis in the Kingdom of the country King and the declaration of a regency. Emperor William and Prince Bismarck designate the King's unwise haste in deposing the country of the King that alone. Love is lacking. He is married but not married between Catholics. He lives a private life. He has ordinary cronies, and devotes all his time and thought to the advancement of his own and daughter's interests. But that part of the family that belongs to the royal personage, that Queen Natalie, the Servian King has left the country and lives in Vienna. Only his father, a wealthy ex-minister, and a few others remain in Belgrade to watch the movements of the regency and the boy is working to change the regency.

RECONCILIATION POSSIBILITY.

Although the belief is increasing amongst that the Liberals will soon again come to the ground, the personal antagonism of Mr. Gladstone's colleagues from Birmingham, Mr. Chamberlain, who is now in New York, Mr. Bright, who is in Scotland, and Mr. Trevelyan, who is in Ireland, is so strong that it is thought by the management to be the greatest obstacle to their return to power. The great movement among Liberals and those who support Mr. Gladstone's policy, and the great enthusiasm which was displayed at the meeting in Edinburgh, when Mr. Gladstone received the freedom of the city, and the Liberal Unionists, who were present, were forced to join in the general applause, have had a great effect upon the Liberal Unionists, and it is thought that they will soon be willing to return to the Liberal party. THE CAPTAIN.

The Queen's appointment of the Duchess of Roxburghe and Lady Ashburton to be Ladies of the Bedchamber in place of Lady Abercorn and Lady Lothian, who have resigned, is the first event of importance that has occurred since the return of the Queen to Scotland. The Duchess of Roxburghe was formerly Miss Mary Caroline Harris, daughter of the late Lord Harris, who commanded upon the field of battle the British troops in the Kaffir war of 1851-52. She married the Duke of Roxburghe in 1865, and has been a widow since 1879. She has been a frequent visitor at Balmoral, and is a great favorite with the Queen. The appointment of Lady Ashburton to be Lady of the Bedchamber is also a graceful act on the part of the Queen, as Lady Ashburton is the widow of the late Lord Ashburton, who was a great friend of the Queen, and who died in 1880. The Queen has also appointed Lady Ashburton to be Lady of the Bedchamber in place of Lady Abercorn, who has resigned.

SUPERNATURAL SUPPLICATION THE SOLUTION OF A STRANGE CASE THAT BAFFLED PHYSICIANS FOR YEARS.

SACRAMENTO, Cal., Aug. 1.—[Special.]—Great interest is manifested here over a faith cure, to which the trustees of all such high-reaching are to-morrow to give unqualified endorsement. The person who is experiencing the cure is Mrs. Clementine Rodgers, wife of Mr. J. C. Rodgers. Mrs. Rodgers is the daughter of the late Seth M. Reed and relative to the Reeds, through Marion and "Doc" Reed of the South Carolina descendants. Mrs. Rodgers is now 40 years old, and has been an invalid for many years. Her affliction consisted in the use of it, and consisted of a gradual loss of muscular power of the lower limbs, so that she was unable to walk to a few years ago she was an invalid, unable to get up or down, or necessary to both across the floor without assistance. Nine years ago she took to her bed, the cause of her being paralyzed from the hips down. Physicians have been called in from all parts of the country, but all to no avail. Her husband, who is a member of the Methodist church, and a prominent member of the Grand Lodge of Masons, a month ago, heard the last meeting there of the Rev. Do What They Will, the Roads Cannot Stop the Shrinkage in Eastbound Shipments.

Open Charges of Rate-Cutting Made Against Trunk Roads Weekly Statement.

Denial by Dr. Rossiter that the South Pennsylvania Had Its Rate Cut.

Eastbound freight shipments by the different trunk lines from this city are getting continually smaller, owing to the stagnation of trade, and prospects were for the week ending July 25, the aggregate for the week being probably about 4,000 tons. The total shipments by the eight eastbound roading lines from this city amounted to only 21,000 tons, or barely more than would have been sufficient to give one road a good week's work. This is the smallest amount carried in one week for several years, and is 6,000 tons less than was carried in the corresponding week last year. The situation is the gravest by far that has confronted the railroads since the war. The Pennsylvania Company, the Pittsburgh, Fort Wayne and Chicago & Grand Trunk lines are each carrying about one-half of the small tonnage allotted to the eastbound roads. Next come the Baltimore & Ohio, Lake Shore, Michigan Central, Erie & Pittsburgh, and Baltimore & Ohio. The Delaware, Lackawanna & Western, which for several months past has carried the largest proportion, has the smallest tonnage. One of the above-named roads would have large earnings if it could get its share of the business. The great bulk of grain offering is taken by the Fort Wayne, Pan-Handle, and Chicago & Grand Trunk, and one of these has the choice that the latter have left. Some months ago, while the other roads were cutting rates, the Pennsylvania and Grand Trunk officials, believing that their lines would get the business in spite of the cuts, refused to meet the latter. They have been accumulating cars at Buffalo for some time past, and are now in receipt of the largest proportion of the eastbound business. The Pennsylvania Company has been making a great effort to secure the business of the Chicago & Grand Trunk, and it is understood that the latter road has been offered a rate which would enable it to secure a large share of the business. Stockholders Liable for Dividends Paid After the Company Is Insolvent.

Considerable Litigation Over Some Peculiar Refrigerator-Cars—Damage Suits Begun.

Judge Gray yesterday handed down the case of Turner R. Ingersoll as receiver of the Chicago Refrigerator-Car Company against Jacob Wendell, Robert W. King, Lemuel B. Ackley, Alvin Kennedy, Godfrey Gunderson, C. H. Hammond, Horace A. Bartlett, and a large number of others, to recover back moneys paid to the defendants on their stock in the company. The defendants were directors of the company, and the suit is brought to recover moneys paid out by them as dividends during the years 1882 and 1883, when the company was insolvent. The amount sought to be recovered is $100,000. The defendants claim that the moneys were paid out in good faith, and that they had no knowledge of the insolvency of the company. The Court decides that the directors are liable for moneys paid out as dividends when the company was insolvent, and that they had no knowledge of the insolvency of the company. AREND'S KUMYSS MILK CHAMPAGNE

Should be the solace of the physician in all those cases of debility in which prompt improvement of the general tone is necessary. Kumyss is the healthful and most easily digested food, and as such the best nutriment for a weak stomach, at the same time through the presence of fermentation which Kumyss develops, nutrient qualities are developed which we could look for in vain in nutritive, in cases of dyspepsia, Kumyss acts like a charm, promptly relieving all the distressing symptoms of such cases. When the stomach rejects all else, Kumyss is retained and assimilated, affording the patient nourishment, strength, and also fat, and, as a logical consequence, restoration and refreshing sleep follow. In mental, hereditary, gastric, and typhoid fever, Kumyss is the best diet. It satisfies hunger and thirst and allays the fever. Kumyss has evidently by the advantage over drugs, in that it can never do harm. Taken in suitable amounts with drugs in an absolutely exact or intelligent medicine adjuncts to this fact. But not only to invalids does Kumyss is essential to, it should be the chief remedy for a weak stomach under all circumstances. The therapeutic value of Kumyss with a few glasses of Kumyss a day will restore the digestive and the nerve force. Ladies would do well to abandon wine, spirits, cigarettes, and tea and coffee drinking if they would add to their daily diet a few glasses of Kumyss.

Send for circular on Kumyss. Dosage of Kumyss is not sold in drug-stores, but only at the manufactory.

IMPORTANT ANNOUNCEMENT.

We will place on sale Monday, Aug. 3, One Thousand (1,000) Seal Plush Sacques at 20 per cent less than the prices we will ask for the same goods after Sept. 1. In order to firmly establish ourselves as the leading Plush Garment house in the West we have determined to sell the above goods for the next three weeks at a small profit above the actual cost.

The advantages of buying early are many.

First, there is a genuine saving of from $5.00 to $50.00, according to the price of the garment.

Second, you are sure you are buying the correct thing, as Seal Plush Garments are going to be the fashionable garment of the season, that we guarantee.

Third, you get your pick of a thousand fresh garments, and as it takes as much trouble and expense to make a Plush Sacque properly as it does a genuine Seal, you will at once see the advisability of purchasing an article that is made during the dull season, and made with extra care, rather than buy one that has been HURRIED THROUGH during the hight of the season.

Fourth, we will lay aside any garment that the lady may choose to be delivered at any time during the season, it being optional with her to pay the whole or part at the time of purchase.

And, finally, we call the particular attention of the ladies of Chicago and the West to the improvements made in Seal Plush during the past year, and will also say that our $25 Seal Plush Sacque, of which we have only one hundred to sell, will compare favorably with the garment that we sold last year for $40.

We would be pleased to show them, whether they intend purchasing or not, as the goods are simply magnificent.

Criticisms of the Naval Advisory Board on the Report of the Boardmen.

The Charge of Structural Weakness Against the Vessel Ignored by Cramford.

Also Alleged Faults Found Not to Be Dangerous Discussed and Dismissed by the Board.

Washington, D. C., Aug. 1.—Chairman Melville this afternoon made public the action of the Naval Advisory Board upon the report of the Dolphin Board of Boardmen, together with the reply of the latter to reports of the board in charge and the indorsement of the Secretary thereof today that the Board Advisory Board declines to enter into the matter of the latter's reply to the criticisms of the Advisory Board, it being the opinion of the Secretary that the Board Advisory Board should not interpose the controversy that has arisen between the constructors that have been and properly reported this to meet the criticisms of those to their work before making them public, that the ship was entered only conditionally, and that to determine conclusively such questions as to arise in the proper voyage. The case recently submitted to Admiral Chadwick for his opinion.

The Advisory Board has also announced its purpose to correct the deficiencies of the Dolphin, as the Secretary thought of the Navy, that the Secretary suggests may be corrected without taking the vessel out of commission.

The Advisory Board says that consequent

HELL GATE, ABOIL.

Flood Rock Is on Its Last Legs and Is Very Soon to Fall.

A Great Work Closing—What Science Has Done in the Boiling Channel.

Details of a Long Endeavor—Millions Spent to Save Millions—Gen. Gillmore's Great Explosive.

"Last June, says a New York paper, will soon be a thing of the past, a tradition that 'once upon a time,' etc., for under Gen. John Newton, Gillmore, Serrig, and the corps of experts who have been planning, laying, hammering, drilling, and exploding since 1868 are definitely, Flood Rock, now unfathomable, will soon be changed into 'reefwork' and to achieve of places close to the surface of the channel and Hell gate, there to stay until the ending the business begun and carried half-finish away.

THE GREATEST ENGINEERING FEAT OF MODERN TIMES.

The original conception of the removal of Hell Gate and Flood Rock was the existence of many large and dangerous rocky obstructions to navigation. The Hell-gate Diamond Reef at mean low water was 7½ feet, after Hamilton Reef, 5½ feet; Pot Rock, 6 feet; Frying Pan, 5½ feet; Way Rock, 6 feet; Bird Rock, 6½ feet; Consolidated at the South Reefers, 9 feet. Hallett's Point, from the shore at points, projected under water 300 feet in the common line of 30 feet at mean low water, and continued an area of about three acres. The Middle Reef, with its area of about nine acres, lay in the middle of the channel at Hell Gate, having a small hummock projecting above high water, and covers twenty-seven acres 6 to the acre 300 feet, which lapped directly over the middle.

Flood's Reef continued on the East and out into the eastern channel, to the Sunken Ledge, around the east at Hallett's Point, and the end of being covered again, the Frying Pan, over Flood's Reef, which remains buried underneath the old main channel on south of to the east at Hallett's Point, as to be submerged to the end of the 19th century were the middle east. It was obvious, therefore, to have removed these the east at Hallett's Point and the middle and continued the greatest [illegible] to safe navigation. Besides these [illegible] were another under consideration of important points in the dilapidation of navigation [illegible] from the Sunken Ledge, Pot Rock, Diamond to Hallett's Point, Frog's Reef and Harlem, all [illegible] to the Sound.

In the main ship channel there were the principal obstructions—the Hell Gate Reefs, south of Great Mill Rock, and Negation Reef, on the New York shore, near Execution Rock. The operations of the most serious under the charge of Lieutenant Commanding Corts and Lieutenant Commanding Parker, assisted by their respective reports, made to Col. and Lieut. APPROPRIATIONS AND EXPENDITURES.

By letters from the Secretary of War, dated the 22d of March, and 27th of July, 1868, to Maj.-Gen. Humphreys, and to Brig.-Gen. Barnard, the latter was directed to make an examination of Hell Gate, for the removal of the rocks and obstructions, and to prepare a plan and estimate of cost. The general estimated the clearing of Hallett's Point, the gateway and the middle reefs, Flood Rock and the connecting reefs, Hell Gate proper, Frying Pan, Frog's Reef, Harlem Reef, and the Sunken Ledge, with the [illegible] Rock, at $1,000,000. This estimate was approved by Gen. Humphreys, and by the Secretary of War, and the [illegible] was made. The general estimated the cost of the operations would be completed within five years, and that the [illegible] of the work would be $1,000,000 per annum. THE DRAMA.

[FROM THE EASTERN EDITION.]

Some signs of activity are to be noticed in the theatrical world after the stagnation of the last few weeks. The opening of Booth's for the dramatic regular season will take place on Monday, the attraction being a revival of "Othello," which made such a hit last year, and which has since become a favorite in New York. "A Modern Paper" will be given by Haverly and Wambold's recently-organized New Comedy company, including many clever people, and "Othello" will be produced together in "Othello." The old house has been redecorated and newly furnished, and there is every reason to believe that a good season has been secured. On the 17th of the month the "Modern Paper" is set to open at the Academy of Music, and on the same night it is announced to give the list of characters the performers, however, are as follows: Charles Fisher, Kate Davis, Mattie Vickers, Fanny Williams, Charles Coyne, John D. Gilbert, Edward Carpenter, Miss Rose, Fred Bassetto, Grace Lamb, Jack Cahill, Emma Wells, Jim and Frank, John Jewett, Fannie Evans, Tom Taylor, Dave Bernstein, and Bob Ingham.

The next business of the old English comedy, Shakespeare's "School for Scandal," and is announced as a full cast is expected meeting and the cast is a promising one, as most of those from the Madison-st. house will be seen. Miss Rose Eytinge will appear as Lady Teazle, Miss Lucy Rushmore as Maria, Miss Caroline Miskel as Mrs. Candour, Miss Kate Claxton as Lady Sneerwell, Miss Rose Wood as Mrs. Candour, Miss Mary Wheeler as Mrs. Candour, Miss Mary Wheeler as Mrs. Candour, Miss Mary Wheeler
